COUNTRY Yugoslavia

SUBJECT Construction Activity along  
the Yugoslav Coast

DATE DISTR. 23 JUNE 1949

NO. OF PAGES 1

NO. OF ENCLS.  
(LISTED BELOW)

SUPPLEMENT TO  
REPORT NO.

25X1X

1. The 7 Yugoslav Shock Workers' Brigade (Udarniska Brigada) moved into Fiume early in May 1949 to undertake a large dismantling project. The brigade has been given the mission of transferring the machinery and removable installations of the Fiume naval torpedo factory to a point two kilometers southeast of Bakar, where concrete foundations have already been laid. A pool of 24 Czech-made trucks has been placed at its disposal, and each of these vehicles makes two daily trips to Bakar.
2. A new submarine construction yard is under construction at the southern end of Bakar Bay. Concrete bunkers for the protection of submarines are reported to be already completed. It is rumored that equipment from Czechoslovakia and the Russian Zone of Germany is being installed at Bakar. A number of German technicians have been observed in the area.
3. A belt one-and-one-half kilometers deep along the coast between Bakar and Sveta Barbara and Kraljevica has been declared a restricted area. No civilians may enter the zone and special passes are necessary for military personnel.
4. It is reported that a great deal of naval construction activity is also under way in the Bay of Sibenik.

This document is hereby regraded to  
CONFIDENTIAL in accordance with the  
letter of 16 October 1978 from the  
Director of Central Intelligence to the  
Archivist of the United States.
